License Renewal Services

Receive auditing and consulting services to keep registration records in order at all times rather than getting bogged down with the complicated logistics in licensing. Get help to minimize or eliminate paying higher registration fees due to estimated mileages and minimize potential audit exposures. Exposures can be minimized by looking for apportioned vehicles not crossing state lines and looking for apportioned states without actual miles.

- ▶ Track license applications
- ▶ Receive real-time reporting that shows upcoming license needs for every vehicle in the fleet
- ▶ Provide fast solutions to any complications or changes in the regulation system

OTS will help handle every aspect of the IRP renewal process. And also coordinate IRP supplements, including additions, deletions, transfers, replacement plates, supplicate cab cards and weight group changes. Get back some of the time and resources licensing takes and put the time and resources you gain into other areas of the business.
